

# ARBONNE essentiäls®

## PLANT-POWERED PROTEIN

Looking to increase your daily protein intake? Healthy living is all about making the right choices. Our bodies use protein to make enzymes and hormones, and to build and repair tissue. Protein also helps support a feeling of fullness, which can help those on a weight management regimen.

**NEW**

### Daily Protein Boost

Our Daily Protein Boost delivers 10 grams of plant-based protein from pea, rice and cranberry, without any added sugar or flavours, for maximum flexibility. Add a scoop to an Arbonne Essentials Protein Shake, PhytoSport™ After Workout, or to other foods or beverages. **#6296**

### Protein Shake Mix

This 30-serving option is perfect to keep at home or in the office. Just add water and blend or create your own recipe with your favourite ingredients! Chocolate **#2957**; Vanilla **#2979**

### Protein Shake Mix Meal Replacement

Following a weight management regimen? Just add water to enjoy one of our tasty meal replacement shakes and benefit from vegan protein, vitamins, minerals and fibre to keep you going through the day. Chocolate **#2069**; Vanilla **#2070**

### Protein Shake Mix 10-Packs

Bring this premeasured, single-serving pouch to the gym for a convenient post-workout shake. Don't forget to add PhytoSport™ After Workout to help support recovery! Chocolate **#2073**; Vanilla **#2074**

**The high quality pea protein used in our products has many benefits over other forms of protein:**

- Easy to digest
- Low allergen potential
- Delivers essential amino acids to support muscle building
- Easier on the environment to produce than other proteins
  - Uses less energy, water, and land to produce
  - Produces far less environmental waste than other proteins
