

# RE<sup>9</sup> ADVANCED™

## Step 1: Smoothing Facial Cleanser

- Crème cleanser provides effective smoothing and renewing of skin surface for soft, supple skin.

## Step 2: Regenerating Toner

Antioxidant-rich, pH-balanced mist with vitamins A, C and E regenerates skin tone and firmness to deliver younger-looking skin.

## Step 3: Intensive Renewal Serum

- A powerful blend of clinically proven, collagen-supporting ingredients that visibly firms and lifts skin, while diminishing the appearance of fine lines.

## Step 4: Corrective Eye Crème

Exclusive blend supports collagen, reducing puffiness and diminishing dark circles.

## Step 5 Day: Restorative Day Crème with SPF

- Advanced moisture-enhancing ingredients and botanicals help restore skin's youthful appearance.

## Step 5 Night: Night Repair Crème

Ultra hydrating blend of botanicals and concentrated vitamin C supports collagen and helps repair skin to restore a youthful appearance.

# RE<sup>9</sup> ADVANCED™

With Lifting  
and Contouring

## Step 1: Smoothing Facial Cleanser

- Crème cleanser provides effective smoothing and renewing of skin surface for soft, supple skin.

## Step 2: Regenerating Toner

Antioxidant-rich, pH-balanced mist with vitamins A, C and E regenerates skin tone and firmness to deliver younger-looking skin.

## Step 3: Intensive Renewal Serum

- A powerful blend of clinically proven, collagen-supporting ingredients that visibly firms and lifts skin, while diminishing the appearance of fine lines.

## Step 4: Lifting and Contouring Eye Crème

Apply by patting gently to the upper brow and continuing around the under-eye area.

## Step 5 Day: Lifting and Contouring Day Crème

- Apply a generous amount to face and neck, after the application of serum.

## Step 5 Night: Night Repair Crème

Ultra hydrating blend of botanicals and concentrated vitamin C supports collagen and helps repair skin to restore a youthful appearance.

## What to expect:

When you begin using a product that actually works to deep clean the skin, you may experience a few blemishes in the first few days. This is NORMAL. The skin is purging itself of impurities under the surface. As the cleanser effectively exfoliates dead skin cells, you may experience a little flakiness as old skin is loosened and new cells are brought to the surface. You may awaken with an oily shine for the first few days of usage with the Night Cream. After a few uses of the Cleanser, the dead cuticle will be removed and the night cream will be able to penetrate the surface of the skin adding moisture and nutrition to the sub layers of the skin. If your face feels oily the first few days, it may mean that you have never felt what it is like to have PH correct skin. A "moist dewy" feeling is normal - that is what your skin is supposed to feel like!

## Option Night Time Step Two. If desired, add to Night Time Routine.

Use before Toner if you spritz,  
or after Toner if you apply with a cotton pad.  
Use in an upward movement.  
Wait a few minutes so it's deeply absorbed.
